

LOCAL BUZZ

Did you know that optimisation of local listings, maps, reviews, & check-in promos can help customers find you before your competitors?

Local listings are increasingly used by people who are searching for products and services in their vicinity, who are also ready to make purchases either online or offline.

What is Local Buzz?

Local Buzz is the optimisation of local listings and maps in search engines and major sites such as Google Places, Bing Local, Facebook Places, and Foursquare.

A fully-optimised local online presence coupled with a strong SEO campaign will put you ahead of your competition. The age of print marketing is going out of the door and you cannot afford not to invest in your online marketing.

Local Search has Grown Exponentially

Local listings are geographically relevant and more targeted to customers. And because of this, local listings in Google Places, Bing Local, Facebook Places and Foursquare gain more online traffic, check-ins and conversions.

Local search has grown by 144% from 2007 to 2011

- comScore Local Search Study 2012

Local Buzz is Good for Your Business

Building 'reviews' is a crucial factor for successful local visibility and so it is an important feature in our Local Buzz service

- 80% of people surveyed had changed a purchase decision due to a bad review they saw online
- 78% of Internet users conduct product research online and they also stated that they believe reviews are the most credible form of advertising
- 50% of ALL internet users over the age of 18 have left a review online

The explosion of mobile device usage has shaped local search and buying behavior. With increased smart phone and tablet adoption, mobile local search grew, causing a high demand for time-sensitive, on-the-go needs for local business information.

Local Search and Mobile

- 64% of tablet owners make local searches at least once a week
- 86% of tablet owners made a purchase from their recent tablet-based local search
- 61% of smart phone owners made local searches from their device
- 72% of smart phone owners made a purchase from their recent tablet-based local search
- 49% of smart phone and tablet users use apps for local business searches
- 61% find local listings more relevant and 58% find it more trustworthy
- 38% of tablet users made a \$100+ purchase
- 32% of smart phone users made a \$100+ purchase

What are Your Competitors Doing?

The number of businesses looking at optimising their local listings, citations, maps, and reviews are increasing.

- 82% of organisations are developing local content on pages, blog posts, and page titles to optimise local search results
- 41% of organisations consider local search a critical or important factor for achieving search marketing objectives

People and businesses are increasingly looking at local listings for shopping, dining, services, vendors and more. For these reasons, appearing in local search results can help a business stand apart from its competition.

However, only:

- 58% list their local business address on their website
 - 22% rated mobile search as either critical or an important factor
 - 19% do local citation building
- and
- 30% find local listings unimportant

This means that doing Local Buzz now will give you an edge over your competitors. This will make it difficult for them to catch up and compete with you when they have finally decided to employ Local Buzz.

The Future

Projections for 2013 show:

- Acceleration of local search volumes due to unprecedented smart phone adoption
- Growth of mobile payment devices
- The release of Google+ Local
- Release of Apple maps
- Release of Google Maps app
- Release of Facebook Nearby

- HubSpot

Major technology players such as Google, Apple and Facebook are investing in local search because they see this as the next big thing. Millions and millions of dollars in B2B and B2C transactions are driven by local search.

Local search volume will continue to grow and sooner or later your competitors will discover its huge potential as early adopters achieve the largest market share out of local search optimisation efforts.

Why Choose Us?

Generating local buzz for businesses is a rather new tactic and not many service providers have acquired the intelligence and the skills required to perform effective local buzz optimisation like we do.

Choosing us as your service provider places you in pole position right in front of this fast-growing source of traffic, and customers, for your business. You do not need to learn the secrets to conducting highly-targeted local buzz optimisation, nor do you need to hire and train a team which can be expensive and

time-consuming. Why waste time and energy when you can remain focused on your core business? All you have to do is to let us handle your local marketing and you handle the leads coming in.

Local buzz may or may not yield immediate results. It depends on many factors, such as your competition. The timetable for a successful local buzz relies on on-going implementation and a continuous cycle of necessary adjustments. These are based on many factors which we regularly analyse and strategise using our proven methodologies. The recommended minimum duration is 6 months. For best results, coupling SEO with Local Buzz is recommended.

In-depth Consultation

We believe that understanding our customer's needs and objectives is crucial to providing superior services and so we take the time to get to know you, your business, your target market, and your competitors. Finally, we factor in your location and geographical targets into our Local Buzz services and then recommend the most suitable solution for you.

We will figuratively and literally draw a planned map to chart the expansion of your visibility and accessibility across your geotargeted presence online

We follow a cycle beginning with an in-depth consultation with you to identify your needs in order to establish the best strategy and implement the most suitable solutions for you. We then measure and analyse the results and listen to your feedback so we can apply continuous improvements to your campaign to make your Local Buzz marketing successful.

Your Local Presence Report

As we consult with you, our Local Presence Report will show you your Local Scores based on your presence or the lack thereof on major sites: Google Places, Bing & Yahoo Local as well as on major directories and other metrics as well. This will tell us what needs to be done to boost your local presence. All in all, you get the following:

- Local Score on Major Local Listings
- Local Score on Major Directories
- Competition Citation Comparison
- Competition Location
- Reviews
- Web Mentions
- Keyword Rankings

Local Score: Google, Bing & Yahoo

Search Engine	Score
Google	20
Bing	Not Present
Yahoo	Not Present

Competition Location

Competition Citation Comparison

Metric	Competitor A	Competitor B	Competitor C
Citation Count	61%	70%	4%
Other Metrics

Reputation: Reviews & Web Mentions

4.0 stars (4 reviews)

Summary of What We Do

Local Business Listing Research and Creation

We will search for duplicate local business listings as these prove to be problematic and will affect the integrity and user-friendliness of your listings. Search engines and major local listing sites flag duplicate entries as these confuse users. We also do competition analysis on your category and do search engine ranking comparisons as well as current directory listings analysis to assess your position and decide how to move forward. We make sure that your (NAP) name, address and phone numbers are valid, verified and are consistent across all current and future listings. This allows us to create your local listing profiles on Google Places, Bing Local, Facebook Places and Foursquare; as well as on top local directories, niche or geo-related directories.

Image Creation, Optimisation, and Publication

We provide high quality image sourcing, editing with branding, and optimisation such as geo-tagging and back link generation. We then upload and publish your branded image to 4 primary local business directories.

Custom Citation Building

We perform directory research and register your business to specialised directories as well as submit a report of recommended paid directories.

Review Publication and Promotion Creation

We analyse the reviews of your competition and then we publish reviews for you. We also provide promotion copy writing and promotion banner/image design as well as coupon creation for you with a bar code.

Local Mobile “Check In” Visibility

We will publicise your local mobile check-in promotions via your Facebook Places, Foursquare and Google Places accounts to encourage more check-ins and more business as well as strengthen your local signals.

Promotion and Event Social Updates

This includes Google Places offers creation/update, Google Plus business page promotion update, Facebook Page promotional “like” creation, Facebook Places promotion publication, Bing Local deals creation, Bing mobile deals publication and Foursquare promotion update to strengthen your local signals.
